G.F. STRONG REHAB CENTRE RESEARCH DAY
MAY 1, 2013

Session 1

1015  COFFEE & REGISTRATION

1030  OPENING REMARKS

1040  “Self-reported physical activity and arm accelerometry: Measuring physical activity in individuals with spinal cord injury during inpatient rehabilitation” Dominik Zbogar, PhD candidate, UBC Rehabilitation Research Lab, G.F. Strong Rehab Centre

1053  “Spinal Cord Injury Rehabilitation Evidence (SCIRE) outcome measures – purpose and Development” Christie Chan, SCIRE Research Team

1106  “Vocational rehabilitation counselling pilot program BC Children’s Hospital” Alison Stewart MA, RRP Vocational Rehabilitation Counselor, G.F. Strong Rehab Centre

1119  “Screening for depression after mild traumatic brain injury” Brad Hallam, Ph.D., R.Psych, Psychologist, G.F. Strong Rehab Centre

1132  “The Finger: an aid for digital rectal stimulation” Dianna Mah-Jones, Occupational Therapist, G.F. Strong Rehab Centre

1145  “Modifiable factors associated with work and employment following spinal cord injury: a systematic review” Logan Trenaman, BSc, SCIRE Research Team

1200  LUNCH (for students, residents, presenters, faculty and invited guests).

Session 2

1300  “Cardiovascular and metabolic complications of spinal cord injury: findings from a national population health study” Jacquelyn Cragg, PhD Candidate, ICORD

1313  “WiiNWALK: feasibility of the Nintendo WiiFit for improving walking in older adults with a lower limb amputation” Bita Imam, PhD Candidate, UBC Rehabilitation Research Lab GF Strong Rehab Centre

1326  “A description of manual wheelchair skills training curriculum and clinical practice in Canadian institutions” Krista Best, PhD Candidate, UBC Rehabilitation Research Laboratory, G.F. Strong Rehab Centre
“24-hour blood pressure monitoring in subjects with spinal cord injury” Michèle Hubli, Postdoctoral Fellow, Autonomic Research Laboratory, ICORD

“Reliability of aortic pulse wave velocity assessments in individuals with spinal cord injury” Katharine Currie, Postdoctoral Fellow, Autonomic Research Laboratory, ICORD

Session 3

1410 “Symptomatic recovery and return to work following mild traumatic brain injury: an exploratory study.” Rosalind Lee, MA, MS, G.F. Strong Rehab Centre

1423 “Retrospective comparison of non-traumatic and traumatic spinal cord injury in British Columbia: 2005-2010” Grace Li, PM&R Resident, UBC

1436 “Strengthening exercise for gait in Cerebral Palsy: an updated literature review” Nicola Hahn, PM&R Resident, UBC

1449 “Validation of the International Autonomic Standards for People Living with Chronic Traumatic Spinal Cord Injury, Preliminary Data” Ross Davidson, PM&R Resident, UBC

1502 “A case report: topical lidocaine for management of pain in CRPS” Amy Hanlan, PM&R Resident, UBC

1515 BREAK

Session 4

1530 “Progesterone in Rehabilitation” Dr. Jerilynn Prior, Professor of Endocrinology and Metabolism, Department of Medicine, UBC

1555 AWARDS AND ANNOUNCEMENTS

1600 KEYNOTE PRESENTATION

THE CIHR TEAM IN DRIVING IN OLDER PERSONS (CANDRIVE II) RESEARCH PROGRAM

Dr. Shawn Marshall
Medical Director Traumatic Brain Injury Rehabilitation
The Ottawa Hospital Rehabilitation Centre

1700 CLOSING REMARKS
PARTNERS:
G.F. Strong Rehabilitation Centre
UBC Division of Physical Medicine and Rehabilitation
UBC Rehabilitation Research Laboratory, G.F. Strong
UBC Department of Occupational Science and Occupational Therapy
UBC Department of Physical Therapy
ICORD

SPONSORS:
Vancouver Coastal Health Research Institute
UBC Division of Physical Medicine and Rehabilitation
Allergan

LOCATION:
Lecture Theatre
(Accessible from the Front Lobby)
G.F. Strong Rehab Centre
4255 Laurel Street
Vancouver BC
