NEGOTIATING CLINICAL TRIAL BUDGETS

Debbie Williams R.N., C.C.R.C., C.R.A., A.B.N. A.B.N.

Amateur Budget Negotiator

OVERVIEW

- Budget Types
- Analyzing the Protocol
- Negotiating the Contract
- Discussion / Tips

Goals

 Participate in the development of new treatments and medicines

Recognition

Part of Hospital Mission Statement

And.....

Profit Margins

The Bottom Line...

...Is Not Always The Bottom Line

TYPES OF BUDGET

- ITEMIZED PER SUBJECT
- STUDY BUDGET (Set-up, Investigator Fees, Pharmacy fees etc.)
- PRESET BUDGET (Lump sum)

3 "EASY" STEPS

Review (What is involved with this study?)

Determine Profit (What is the profit margin?)

• Revise (Negotiate)

ANALYZING THE PROTOCOL

- Feasibility
- Focus quickly on whether or not you can/want to do study

Investigator Motto

Just Do It

Available Resources

- Patient Population
- Staff to properly conduct study Study Coordinator and Nurses
- Access to specialized tests / equipment such as CT, MRI, refrigerated centrifuge etc.
- Is Medical Coverage required?

Do you have the patient population?

If not:

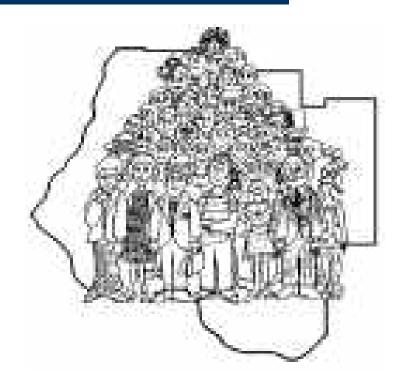

Cost of Recruitment

Advertising

Stipends

Staffing

- Principal Investigator
- Sub-Investigators
- Study Coordinators
- Nurses
- Lab
- Pharmacy
- Etc.

Specialized Equipment / Tests

- MRI
- CT
- Cardio
- Pulmonary Function tests
- Day beds
- Refrigerated centrifuge ...

STUDY SCHEMATIC Schedule of Assessments

- Good synopsis of study requirements
- Create a template to roughly estimate costs

			Clinical Trials Budget								
				Proto	col: 12	34567	889				
			Treatment Phase					Costing			
Assessments		Screening Baselin						Follow-up	Number of	Actual Cost	Total
			Visit	Day 1	Day 2	Day 7	Day 14	Day 21	events	per event	Cost
Eligibility		Х	Х	Х	Х	Х	Х		6		
Informed	Consent	Х							1	35	
Medical H	listory	Х							1	50	
Physical E	Examination	Х						X	2	100	200
Vital Sign	ıs	Х	X	Х	Х	Х	X	X	7		
Pregnanc	y Test	х	х						2	26	52
ECG		Х	х	Х		Х	Х	Х	6	35	210
Chest Xra	У	х					Х		2	50	100
Weight ar	nd Height	Х	х					Х	3		
Hematolo	gy	Х	х	Х		Х	Х	Х	6	30	180
Clinical C	hemistry	Х	Х	Х		Х	Х	Х	6	25	150
Virology	Нер В	Х							1	25	
	Hep C	Х							1	20	
	HIV	Х							1	20	20
Drug Scre	en	Х	Х						2	30	60
Urinalysis		Х	х	Х		Х	х	Х	6	12	72
Adverse E	xperiences	Х	х	х	Х	х	х	Х	7		
Concomit	ant Meds	Х	х	Х	Х	Х	Х	Х	7		
Complian	ce			Х	Х	Х	х	Х	5

Dispense	Study Med		1	Х	Х	Х	Х		4	15	60
Pharmaco	-		1	Х	Х	Х	Х		4		
Investigat	or Cost		1								
	ordinator Hou	x (2)	x (1)	x (1.5)	x (1.5)	x (1.5)	x (1.5)	x (1.5)	10	30	300
CRF Com		` '	<u> </u>	<u> </u>	<u> </u>	<u> </u>	` '	x (6)	1	30	
	F Corrections							<u> </u>		30	

Institutional Costs

25% Overhead

Cost and Charge

 Find out what a procedure or test actually costs Charge a higher rate to sponsor

Staffing Costs

- Do not quote actual hourly rate.
- Inflate salary to cover benefits, vacation pay, sick pay coverage, overtime, raise increases for study personnel (for studies of long duration)

Investigator Fees

- Need to factor this in with itemized budget formats (as well as lump sum budget)
- Follow MSP rates for physicals, medical histories – usually \$150 - \$200 / hour
- Consider time for meetings, reviewing and signing CRFs, DCRs, etc.

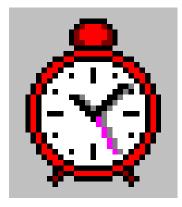

Pharmacy Fees

- Set-up fee of \$1000 whether or not you actually enroll subjects
- Dispensing fee approximately \$15
 (could be more depending upon workload)

Coordinator Time – Pre study

- Read protocol
- Prepare budget
- Pre-Site visit
- Obtain hospital approval
- Prepare submission to IRB
- Train study staff / nursing staff
- Attend Investigator's meeting
- Organize Initiation meeting

Coordinator – during study

- Screening
- Consenting
- Enrolling subjects
- Subject visits and procedures
- CRF completion
- DCRs
- MedWatch reports / SAEs
- Enrollment logs

Coordinator – during study

- Make sure to ask for at least the draft CRF before signing budget
- CRF could be very lengthy and complicated
- On-call for study enrollment

Coordinator – study close

- Preparation for site close-out visit
- Storage of documents what is this going to cost you?
- Letter to IRB

STUDY AUDIT

Possibility of Audit (Sponsor or Regulatory) is great – especially if you are a high enrolling site.

- What is the time involved?
- Ask for a amount up and above the "lump sum" dollar figure.

Other Costs to Consider

- Screen failures common
 - Coordinator time consents, arranging appointments
 - > Lab costs
 - > Investigator time
 - Screen failure CRF completion
 - > Clerical time

Solution

- Ask for screen failure reimbursement
- Some companies are okay with this, others have policy not to pay
- Doesn't hurt to ask

Assessment		Number of	Item Cost	Total Cost	Item Cost	Total Cost	
		Times			Charged	Charged	
Informed	consent	1	35	35	50	50	
History		1	50	50	75	75	
Physical E	Exam	2	50	100	100	200	
Vital Sign	s	6	0	0	0	0	
Serum Pr	egnancy	2	25	50	35	70	
ECG		6	35	210	50	300	
Chest Xra	у	2	50	100	75	150	
Hematology		6	30	180	45	270	
Clinical Chem		6	25	150	35	210	
	Нер В	1	25		30		
	Hep C HIV	1	20	20 20	25 25	25 25	
Drug Scre		2	30	70	35	70	
Urinalysis		2	9	18	15	30	
Randomiz	ation	1	30	1	40	40	
Drug Disp	ensing fee	5	15	75	20	100	
Pharmaco	okinetics	4	30	120	40	160	
Coordinat	or hours	10	30	300	40	400	
CRF Com	oletion	6	30	180	40	240	
Subject S	tipend	1	125	125	125	125	
Total po	<u> </u>		1	1829		2570	

Total p	er Patient				1829		2570	
Profit Margin per subject = >40%								

Other Costs continued...

- Redraw or repeat of blood samples/tests (budgeted for only one)
- SAEs can be costly in time ask for reimbursement in budget.
- Copying and shipping of films
- Preparation of study specific blood samples
- Dry ice
- Patients not compliant or do not finish study
- Protocol amendments

START UP COSTS

Pharmacy Fee	1000
--------------	------

Submission to IRB 750

Study Set-up 1000

Attendance at Meetings 1000

(Investigator's and Site Initiation)

Administrative Expenses 500

(Phone calls, Faxes, FEDEX, includes Coordinator time)

TOTAL = \$4250

Alternate Solution

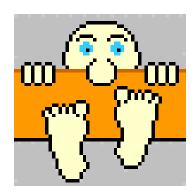

- Ask for study start-up fee apart from patient enrollment fee
- One time charge
- \$5000 ?

Get Definition of Subjects for Payment Purposes!

- Consented
- Enrolled Randomized
- Randomized but did not receive drug
- Subject withdraws consent
- Subject lost to follow-up
- Subject completes study

BIG COST TO SITE

- Premature cancellation of study due to safety or efficacy concerns!
- Need to ask for compensation in budget to cover this.

Other Pass-Thru Costs to Negotiate

- 25% overhead
- Screen failure reimbursement
- SAEs (if expecting several)
- Copying and Shipping of Films
- Dry Ice for Shipping
- Audits What's your time worth?
- Document Long-term Storage

ADDITIONAL REQUESTS

 Screen failure \$2 	25.00)
--	-------	---

- SAEs \$100.00
- Film Copying \$25.00
- Dry Ice \$25.00
- Audit \$200.00

Other Costs continued...

- "Incentives" to staff
 - Increases compliance with study protocol
 - Makes staff more aware of research being conducted
 - Good attitude adjuster

Can generally ask monitor to get permission from sponsor during study for these perks.

Get On The Phone

- Talk to other sites conducting study
- Try to go in together with same budget expectations – power in numbers
- Talk to Sponsor budget department state your case for more money with specific examples
- Involve PI

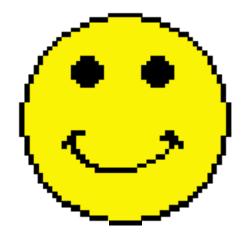

U.S. Sponsor

Ask for U.S. Dollars 50% profit immediately

IT DOESN'T HURT TO ASK

All they can do is say no!
