

Foundations in Patient-Oriented Research

MODULE ONE

Join us and the BC SUPPORT Unit for an interactive workshop on the principles of patient-oriented research – what it is, why it is important and how it is done.

REGISTER TODAY

www.vchri.ca/ResearchEducation

Lunch is included

Date March 15, 2019
Time 9:00am - 4:00pm
Registration opens at 8:30am

Where Paetzold Multi-Purpose Room at VGH
899 West 12th Avenue, Vancouver

Speaker
Dr. Larry Mróz

Co-facilitated by
Bev Pomeroy

The first of three modules on the foundations of patient-oriented research, this workshop will provide an overview of patient-oriented research, as well as an opportunity for participants to assess how they wish to be engaged.

- ✓ Understand the benefit of involving patients, health care providers and health system decision-makers in research
- ✓ Describe the various levels of engagement as outlined by the International Association of Public Participation (IAP2)
- ✓ Compare patient-reported outcome measures with traditionally used health research measures
- ✓ Outline the practical considerations for engaging patients as partners in health research
- ✓ Assess the unique strengths that patients bring to research
