

# Do you have rheumatoid arthritis and are thinking about biologics?

Take a look at the latest online technology!

## PURPOSE OF THIS STUDY :

We would like your help to understand whether a web-based program helps people with rheumatoid arthritis make decisions about using biologic treatments.

## WHO CAN PARTICIPATE?

You may be eligible to participate if:

- > You have a diagnosis of rheumatoid arthritis
- > You have seen a rheumatologist
- > You have started discussing switching to or starting biologic medication with your doctor
- > You have reliable access to the Internet

## WHAT IS INVOLVED?

You will participate in a trial to determine the usefulness of a web-based program designed to aid people with rheumatoid arthritis in making decisions to start or switch biologics. We will also ask you some general questions about your health.

Any information you provide will remain completely confidential. An honorarium will be provided for your time.

## CONTACT INFORMATION

## PRINCIPAL INVESTIGATOR

Dr. Linda Li  
Senior Research Scientist  
Arthritis Research Centre of Canada  
Professor  
UBC Department of Physical Therapy  
Research Investigator with VCH  
Research Institute

## STUDY TIME/DURATION

Ongoing until December 2018

## STUDY LOCATION

The study takes place remotely (online and by telephone).  
Interested participants can contact the Research Coordinator, via email or through our UBC Study website
